## January 2023 Newsletter

### Note from the UAA Board

Feliz Navidad, bonne annee, and best wishes for a happy, healthy, and safe New Year to all! Our successful AGM is behind us, our new Board members are in place (see photo below!), and we're ready for a busy year ahead. Our annual plan for October 2022 through September 2023 was previewed at the October AGM, so we have our direction and objectives set for 2023.

Some of our first actions include approving the 2023 budget and new Committee Co-Chairs in early January, meeting with Deputy Administrator Paloma Adams-Allen later in the month, UAA members (including our FL-based Board member, Miles Toder, our DMV-based Outreach Committee Co-Chair Beth Hogan, and our strong FL-based retirement community) will gather at the Florida Foreign Service Retiree Association meeting, and Mentoring Program mentor training wraps up the month.

We expect to have one Co-Chair opportunity available for members wishing to work with colleagues and support UAA efforts: watch the February Newsletter for our newly approved Co-Chairs and volunteer opportunities!

Of the forty-two mentees, eleven are in the Senior Leadership Group, thirteen in Global Health, and eighteen in the Africa Bureau. Some UAA mentors offered to mentor two mentees during this cohort.

## UAA DACOR Development Dialogue

## China's Impact on Developing Countries

Dr. David Dollar, Brookings Senior Scholar and leading expert on China's economy, led over 60 attendees through a fascinating discussion on "China's Impact on Developing Countries – the Belt and Road Initiative, and more" at a UAA/DACOR Development Dialogue (Virtual) on December 7. He reviewed important China-focused background considerations before covering this topic in detail. He then responded to more than twenty challenging audience

questions, a sign of the high level of interest his talk generated. To see this hour-long program please click [here](#).

## USAID Assistant Administrator for Europe and Eurasia Ambassador Erin McKee and former USAID Counselor Tom Staal

On Tuesday, November 15, USAID Assistant Administrator for Europe and Eurasia Ambassador Erin McKee was the featured speaker in a virtual UAA/DACOR Development Dialogue focused on "Ukraine – Providing Humanitarian and Economic Assistance in a War Zone." In conversation with former USAID Counselor Tom Staal and in her responses to questions from the audience, she spoke candidly of the many great challenges being confronted and largely overcome by USAID staff members and their partners as they help the Ukraine government meet today's and future investment needs. ## Development Issues Committee Hosts Discussion: PEPFAR at 20

On November 29 the Development Issues Committee conducted a well-attended virtual discussion on "**PEPFAR at 20**" in conjunction with World AIDS Day on December 1 and the upcoming 20<sup>th</sup> anniversary of the establishment of PEPFAR in early 2003. The discussion was led by **Ambassador Dr. John Nkengasong**, U.S. Global AIDS Coordinator and Special Representative for Global Health Diplomacy, **Han Kang**, Director of USAID's Office of HIV/AIDS, and **J. Stephen Morrison**, Senior Vice President at the Center for Strategic and International Studies (CSIS) and Director of CSIS's Health Policy Center.

Ambassador Dr. John Nkengasong

J. Stephen Morrison

Han Kang

Ambassador Nkengasong highlighted the key messages of a recently released policy paper “Reimagining PEPFAR’s Strategic Direction” designed to accelerate the path to end the HIV/AIDS pandemic as a public health threat by 2030 and the challenges in reaching the “last mile.” Han Kang stressed the challenges in achieving health equity to address the needs of those at most risk and ways to improve the delivery of prevention and treatment, stressing the importance of locally led efforts. Steve Morrison highlighted the bi-partisan support for PEPFAR in Congress, the need to improve the interagency process and the need to replenish a “worn out” workforce of those implementing PEPFAR. The recording of the session is posted on the UAA website and is linked [here](#).

## Alumni Profile: Thomas H. Staal

In 1985, Tom Staal was between jobs when he heard about the devastation of the famine in East Africa, highlighted by the song, “*We Are The World*.” Tom had grown up overseas with missionary parents, studied International Affairs and worked for over six years in Saudi Arabia, but had no humanitarian or development experience. World Vision

was opening an office in Sudan and looking for someone who had worked in an Arab, Muslim country. So, Tom was off to Khartoum working with World Vision, a non-governmental organization with funding from some U.S. Government agency which he had never heard of – USAID – to provide humanitarian assistance and, as conditions improved, village level development work.

After almost three years, World Vision was leaving Sudan, and Tom applied to replace his USAID counterpart, Kate Farnsworth, who was moving on to Addis. Thus, he became a USAID Office of Foreign Disaster Assistance Personal Service Contractor (OFDA PSC) and began his USAID journey, from OFDA to Food for Peace Foreign Service Officer to Project Development Officer to General Development Officer and into management.

Having done both humanitarian assistance and “regular” development work, Tom was seized early with the need to better integrate rather than treat the two distinct interventions separately. As Mission Director for Ethiopia with large humanitarian and development portfolios, he led the development of a strategy – the first Mission to use the term “resilience” in its strategy -- which integrated the efforts, building on the work done by his predecessor, Bill Hammink. Though Tom had higher-level positions in Washington, he said that he considered the Ethiopia position as the pinnacle of his career as a development professional. He was gratified to have had the opportunity to continue that integration effort as Deputy and Acting Assistant Administrator of the Democracy, Conflict and Humanitarian Assistance Bureau.

Tom retired from USAID in 2019 and summed up his USAID experience: “One of the wonderful things about a USAID career is the chance to do a variety of activities in multiple countries. I had 17 different assignments, serving 20 years overseas and 11 years in Washington. Even going to a war zone in Iraq provided me learning opportunities, and the chance to visit my boyhood home in Basrah. But the best part of my USAID career was the wonderful people I interacted and worked with, all toward a cause of making the world a better place.”

Tom is an active UAA and DACOR member. He resides with his wife Ann in the Washington Metropolitan area and welcomes hearing from his friends and former colleagues at [tomstaal75@yahoo.com](mailto:tomstaal75@yahoo.com).
