

## Kerry Byrnes

Kerry Byrnes passed away Friday morning, March 24, 2023, after suffering a stroke on March 21. A secondary stroke occurred later that day as a result of brain bleeding caused by a bad reaction from the TNK anti-coagulant drug administered to break up the initial clot. Following the 2nd stroke, Kerry never regained consciousness and a subsequent brain MRI revealed extensive, irreversible brain damage.

Family visitation (10:30 am) and brief memorial services (11:30 am) will be held at the Money & King Funeral Home (171 Maple Ave. W, Vienna, VA) on Monday, April 3, 2023. The memorial/prayer service will be streamed live and accessible on the Money & King website in the days after the ceremony (<https://www.moneyandking.com>).

Kerry had a very constructive career trying to advance rural and agricultural development in many nations to improve lives around the world. Traveling to some 39 countries throughout his career, getting him back on the road for additional international travel in his retirement years was a "tough sell" for Sonia, his wife. Still, they enjoyed several trips abroad over the last 9 years since his 2014 retirement. The family appreciates the many expressions of love, condolences and prayerful support extended to his spouse, Sonia, and the other members of Kerry's family.
