Offering some hope.

Cheers! Nancy T

## Government Employee Unions Sue to Shut Down USAID

For Immediate Release: February 6, 2025

Contact: Emily Leach, [eleach@citizen.org](mailto:eleach@citizen.org)

WASHINGTON, D.C. — Today, Public Citizen Litigator [filed a lawsuit](#) on behalf of the [American Foreign Service Federation of Government Employees](#) against Donald Bessent, the U.S. Agency for International Development, and the Department of Treasury for shutting down USAID during a global humanitarian crisis.

As [the complaint](#) explains, by imposing stop work orders on leave or terminating them entirely, naming Secretaries, and other actions, the Trump Administration has cost thousands of lives and threatened U.S. national security interests. And it has left USAID unable to provide life-saving food, medicine, and support to people across the world.
