“Nicholas Enrich never set out to become an author, but he has written a gripping page-turner that doubles as both a warning and an inspiration. In revealing the behind-the-scenes story of the dismantlement of an agency that was saving millions of lives, Nick offers rich character portraits and eye-witness evidence that have never before come to light. He reveals not only the chilling indifference of the architects of USAID’s destruction, but also the quiet heroism of the public servants who refused to give up on their ability to do good. Generations from now, people will read this book to understand one of the greatest blunders in American history, and to seek inspiration from those who tried to prevent it.” —SAMANTHA POWER, winner of the Pulitzer Prize
