

UAA Development Issues Committee
Foreign Assistance 2.0
Virtual Discussion on
Government Partnerships
in Global Health Cooperation
Wednesday, June 10, 2026 11:30 AM to 1:00 PM

On Wednesday, June 10 from 11:30 AM to 1:00 PM EDT, the Development Issues Committee is pleased to present Sarah Rose on **“Government Partnerships in Global Health Cooperation.”**

Foreign engagement through assistance is so vital to the national interests of the USA that inevitably a demand will emerge on revitalizing international leadership through among other initiatives, assistance institutions and programs. One modality being used by the current Administration is Health Compacts. Ms. Rose has co-authored [an analysis of these compacts](#).

A comprehensive discussion on foreign assistance is essential to ensure that the American Public clearly understands and supports foreign assistance 2.0. That understanding will be enhanced and support will be strengthened by the experience and expertise of practitioners.

This is the UAA’s comparative advantage, to provide a practitioner’s perspective on what may be termed best practice for the next iteration of foreign assistance.

We will feature Sarah’s presentation and Questions/ Discussions.
